

## Topic of the Month / Mountain Flying

### Teaching Points:

- Mountain flying training from qualified, experienced instructors is essential.
- Training in one mountain environment does not guarantee success.
- The Mountain Flying Power Point – provided by the Colorado Pilots' Association – acquaints pilots with the challenges of mountain flying and offers suggestions for training and additional information

**Directions:** Lane Aviation is located on the right side as you drive toward the terminal on International Gateway. Turn right into Lane Aviation entrance, bear to right of flag pole, enter building with maroon awning (4387) over the door, up the stairs to second floor, room on the left.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
